The Preparatory School.

GENERAL PLAN.

There are four courses of study in this department, arranged with special reference, to prepare students for either of the four established courses in the College of Liberal Arts. The Faculty is the same, and thus students in this school have the advantage of experienced college teachers to fit them for the Freshmen class. These preparatory courses are as follows:

I. The Classical Course.

II. The Latin Scientific Course.

III. The Scientific Course.

IV. The Course in Philosophy and Literature.

These courses embrace a period of two years, or longer, until completed. But students who have studied a part of either course before entering will be permitted to finish it in less than two years. Upon the completion of either course students will be admitted into the Freshmen class of that course.

NORMAL CLASS.

A Normal class will be formed each term, and during the year all the common school branches will be pursued. A lecture will be given weekly to all Normal students upon the subjects required to be taught, and all students who desire to teach will be admitted free of charge to this class, provided they belong to some other department of the college. Special attention will be given to the principles of school government. The course of study embraces all the branches for a first grade certificate, and if desired may extend through all the studies required for a State certificate.

ESSAYS, ORATIONS AND DECLAMATIONS.

In addition to the daily recitations, students recite in elocution, and have systematic instruction in English Composition. During the second and third terms the Junior Preparatory students will give one selected recitation each term, before some member of the faculty. The Senior Preparatory students will deliver two orations during the year, one of which shall be in public. The Collegiate students will deliver two orations in public each college year.

Preparatory Courses of Study.

Junior Preparatory.

	CLASSICAL.	LATIN SCIENTIFIC.	SCIENTIFIC.
First Term.	Geography. Arithmetic. Grammar. Latin. Elocution.	Geography. Arithmetic. Grammar. Latin. Elocution.	Geography. Arithmetic. Grammar. Elocution.

Third Term.	Algebra. Physical Geography. Cicero. Anabasis—3 books.	Algebra. Physical Geography. Cicero. Elocution.	Algebra. Physical Geography. Composition. Elocution.

☞ Preparatory Course in Philosophy and Literature same as the Scientific Preparatory.

College of Liberal Arts.

The College of Liberal Arts offers four courses of study of four years each, as follows: The Classical Course, the Latin Scientific Course, the Scientific Course and the Course in Philosophy and Literature.

I. THE CLASSICAL COURSE.

In this course prominence is given to the study of Latin and Greek, and a preparation of two years is necessary for admission. This preparation can be obtained in the Preparatory department of the college, in the same building and under the same management as the College of Liberal Arts. Recitations each day except Saturdays and Sundays throughout the course in all the studies. The remaining studies of this course, equal to about two-thirds of the entire requirement, include the subjects of Natural Science, History, Mathematics and Philosophy.

II. LATIN SCIENTIFIC COURSE.

In this course the Greek is omitted, or the Greek may be taken in place of the Latin, and the time thus gained is devoted to the study of advanced Mathematics and special branches of Physical Science.

III. SCIENTIFIC COURSE.

This course is designed for those who do not wish to study Latin and Greek, but desire to devote more time in the study of English Literature and the various sciences that are taught in the college. English, French, German, Chemistry and Physics and the Natural Sciences are made prominent.

IV. THE COURSE IN PHILOSOPHY AND LITERATURE.

In this course advanced Mathematics is made elective, and special attention is given to the study of History, Philosophy, English Literature, Science and Physics. No language except the English is required in this course—French and German are elective.

Requirements for Admission.

I. THE CLASSICAL COURSE.

Candidates for the Freshmen class will be examined in the following studies: Arithmetic, English Grammar, Geography, Latin Grammar, Cæsar (four books), Greek Grammar, Latin Prose Composition (16 lessons), Greek Prose Composition (16 lessons), Cicero (one oration), Algebra through quadratics, Physical Geography or Elementary Physics, Anabasis (three books), United States History, French History or equivalent.

II. THE LATIN SCIENTIFIC COURSE.

Candidates for the Freshmen class will be examined in the following studies: Arithmetic, English Grammar, Geography, Latin Grammar, Cæsar (four books), Latin Prose Composition (16 lessons), Cicero (one oration), Algebra through quadratics, Physical Geography or Elementary Physics, Elements of Natural Philosophy, United States History and French History.

III. THE SCIENTIFIC COURSE.

In 1883 candidates for the Freshmen class will be examined in the following studies: Arithmetic, English Grammar, Geography, English Composition, Algebra through quadratics, Physical Geography or Elementary Physics, Elements of Natural Philosophy, Elements of Physiology, United States History and French History.

IV. THE COURSE IN PHILOSOPHY AND LITERATURE.

Candidates for the Freshmen class will be examined in the same studies as those given in the Scientific Course, with the addition of Roman History.

Courses of Study.

Freshmen Class.

	CLASSICAL.	LATIN SCIENTIFIC.	SCIENTIFIC.
First Term.	Geometry. Cicero. Xenophon. Roman History.	Geometry. Cicero. Roman History.	Geometry. German and French. Roman History.
Second Term.	Geometry. Ancient History. Virgil. Homer.	Geometry. Ancient History. Virgil. Civil Government.	Geometry. Ancient History. German. French.
Third Term.	Geometry. Mediæval History. Virgil. Herodotus.	Geometry. Mediæval History. Virgil. Physiology.	Geometry. Mediæval History. German. French.

Sophomore Class.

	CLASSICAL.	LATIN SCIENTIFIC.	SCIENTIFIC.
First Term.	Trigonometry. Livy. Physiology. Odyssey.	Trigonometry and Surveying. Physiology. Livy.	Trigonometry and Surveying. German. French. Physiology.
Second Term.	Chemistry. Livy and Sallust. Odyssey.	Chemistry. Livy and Sallust. Geology.	Chemistry. German. French. Geology.
Third Term.	Rhetoric. Logic. De Senectute. Demosthenes.	Rhetoric. Logic. Laboratory Practice. De Senectute.	Rhetoric. Logic. Laboratory Practice. French.

Courses of Study.

Junior Class.

	CLASSICAL.	LATIN SCIENTIFIC.	SCIENTIFIC.
First Term.	Conic Sections. Horace. Æschylus.	Conic Sctions. Physics. Zoology. Horace.	Conic Sections. Physics. Zoology. French
Second Term.	Analytical Geometry. Political Economy. De Corona.	Analytical Geometry. Physics. Political Economy. De Corona.	Analytical Geometry. Physics. Political Economy. German.
Third Term.	Psychology. International Law. History Civilization. Botany.	Psychology. International Law. History Civilization. Botany.	Psychology. International Law. History Civilization. Botany.

Senior Class.

	CLASSICAL.	LATIN SCIENTIFIC.	SCIENTIFIC.
First Term.	Apology Plato. Butler's Analogy. Analysis Constitution. Zoology.	Calculus. Butler's Analogy. Analysis Constitution. Zoology.	Calculus. Butler's Analogy. Analysis Constitution. Zoology (Comparative and Systematic.
Second Term.	Ethics. Christian Evidences. Mineralogy. Geology.	Ethics. Christian Evidences. Mineralogy. Geology.	Ethics. Christian Evidences. Mineralogy. Geology.
Third Term.	English Literature. Astronomy. History of Philosophy.	English Literature. Astronomy. History of Philosphy.	English Literature. Astronomy. History of Philosophy.

Note —The Course in Philosophy and Literature is similar to the Scientific, except that the languages, French and German, are optional and the Higher Mathematics are elective. More attention is given to History, Philosophy, English Literature, Science and Physics.

Department for Ladies.

COMMITTEE OF OVERSIGHT.

JOHN T. LONG, LL.D., PRESIDENT.
HANNAH E. DAVIS, A. M., DEAN.
MARY E. LONG, B. S., MATRON.
MARY C. PENFIELD, B. M.
RACHEL A. ROLFE, A. M.

The privilege of all the courses of study in the College of Liberal Arts is extended to women on the same terms as to young men.

Experience has proven that the principles of high and noble manhood and womanhood are by this means more firmly established. Young ladies and gentlemen educated together are thus better qualified to discharge the duties of active life. In this manner refining influences are brought about that can be obtained in no other way. While this is true, young persons removed from parental care are carefully guarded.

Lady students recite in the Preparatory and College classes according to their advancement. All lady students coming from abroad must board and room in the ladies' dormitory, unless permitted to board elsewhere by the President, and the same rules of conduct apply to them wherever they may board.

Miss Hannah E. Davis, formerly President of Allegheny (Pa.) Female College, has immediate oversight over them, aided by assistants and under the ultimate direction of the President.

Boarding Department.

The Boarding Department is under the general direction and charge of the matron.

COMFORT AND HEALTH.

Everything is done for the comfort and health of the students. But two are permitted to room together, and there are approved regulations as to hours and personal regimen. The building is finely finished and furnished and is supplied upon every floor with water and every modern convenience. The rooms are well ventilated. There have been no cases

of severe illness, and it is acknowledged by all to be the most healthful location in the west. The surroundings are all that could be desired in any well regulated home.

DORMITORY BUILDING.

For cut of this building see the outside cover page. The west half of this beautiful building, containing sixty-five students' rooms, is occupied exclusively by the lady students. There is not a more attractive nor finer constructed building to be found anywhere in the west. It is surrounded by a beautiful shady lawn, and is in every way substantial and comfortable. The rooms are all of good size, carpeted with heavy carpet and furnished with good furniture. Each occupant supplies herself with bed linen, one comfort, a pair of pillow-slips and towels. The building is situated within thirty feet of the main building where the recitations are held.

The campus, containing over five acres, is supplied with broad paved walks, affording the lady students opportunity for outdoor exercise.

DIRECTIONS.

Each student must bring her own napkins and napkin-ring. All apparel should be plainly marked. Extravagance in dress should not be encouraged by parents. Students need but little spending money, and those from a distance should not be asked to come home only in vacations. Students should not invite their friends to visit them in their rooms during study hours.

TEACHERS.

Principals, superintendents of schools and others in need of young women as teachers for public schools, academies, seminaries or schools of high grade are invited to apply to the president of the college. Teachers who have been sent out from this institution have invariably given perfect satisfaction. School directors and others of the great west are beginning to realize that this institution furnishes thorough and competent teachers.

EXPENSES.

For statement of expenses, which are almost one-half lower than any other first-class college with equal advantages, see another page of this catalogue.

Course in Philosophy and Literature.

All the courses of study in the College of Liberal Arts are open to women. Yet those who are taking music and painting and making them specialties are recommended to take the studies of this course in connection with music and art, or they may elect such branches in the course as they may prefer.

RECITATIONS DAILY.

The Faculty of the college is large enough to hear students recite daily—five times a week—and this is strictly adhered to. The recitations are three-quarter hours in length, and experience has shown that a less number of recitations in any one branch per week is not productive of good results. Students will please make a note of this fact, that special attention is given to all recitations daily.

Fine Art.

The recent revival of art in all branches and especially its rapid revival in America, has produced a demand for æsthetical studies, hitherto unknown. Henceforth study in the department of Fine Art, must be considered one of the essential accomplishments in cultivated society. Miss H. E. Davis, who received her art education from prominent masters, has charge of this department. And rare opportunities are offered to those intending to devote themselves to the study of art, in one or all of its branches.

Instruction is given in the use of charcoal, crayon, India ink, sepia, and pen and ink sketching, thus educating the eye and hand of the pupil by a careful study in copying from the flat and also from objects.

Instruction is given to a class in the history of the fine arts during a portion of each year.

EMBROIDERY.

In connection with this department lessons in embroidery are given. Kensington embroidery made a specialty. Terms very reasonable.

LINEAR PERSPECTIVE.

Lessons in free-hand drawing are given to all who desire, and special instruction is given for enabling the student to better understand the appearance of one object when viewed from different positions, and under different lights and shades, but freedom of motion and greater precision and accuracy are the principal objects of these lessons.

Library and Hall.

The library and reading room is opened one hour daily. The ladies also have a finely furnished hall for literary work in which they meet every Friday evening. They elect their own officers and conduct the exercises, giving one open session per term.

Cost of Art Studies.

Tuition for twenty-four lessons:

Drawing, etc., with sketching from nature,	$ 8 00
China painting,	12 00
Oil and water-color painting,	12 00
Pastille,	12 00
Decorative art,	12 00
Portraiture in crayon,	12 00
Portraiture in oil,	15 00
Wood carving,	12 00

Conservatory of Music.

FACULTY.

JOHN T. LONG, LL.D., PRESIDENT.

MARY C. PENFIELD, B. M., DIRECTOR.

HANNAH E. DAVIS, A. M.

PHILIP C. HAYDEN.

JOSEPHINE BURGE.

JOHN H. RAYHILL.

E. DECOSTER GLAVIN, A. M.

E. C. FERGUSON, Ph. D.

GENERAL INFORMATION.

This department is under the same general management as the other departments and under the especial supervision of the director.

It is the aim so to manage the course of study that students shall become thorough musicians and not gain a merely superficial knowledge of a few branches.

The course of study in harmony and composition requires three years. For piano, singing and violin the length of time depends upon the previous attainments of the pupil and also upon his talent and diligence. Sufficient time is required, however, to fit the student for giving thorough instruction in each of these branches.

All students, upon completing the course in either of the above branches, are awarded diplomas by the college, conferring the degree of Bachelor of Music.

HARMONY AND COMPOSITION.

The course is as follows:

First Term. Musical Notation, Keys, Scales and Signatures, Intervals, Formation of Triad, Chord Connection, Simple part-writing begun.

Second Term. First four chapters of Richter's Manual of Harmony with additional exercises in harmonizing basses and distinguishing Chords and Chord Connections by ear.

Third Term. Fifth Chapter to Part Second, of Richter's Manual with additional exercises, as in the Second Term. Harmonizing easy melodies begun.

Fourth Term. Part Second of Richter's Manual to Part Third, with additional examples and exercises, including reading and writing from sound. Harmonizing melodies continued.

Fifth Term. Part Third of Richter's Manual, with extra work as in previous terms.

Sixth Term. Modulation, Harmonizing Chorals begun.

Seventh Term. Harmonizing Chorals continued, Analysis of Musical Works.

Eighth Term. Analysis continued, Composition.

Ninth Term. Counterpoint, single and double. Composition.

PIANO FORTE.

In the study of this instrument special attention is paid to developing a pure, musical touch, correct phrasing, and a refined and expressive school of playing.

The following is an outline of the mechanical part of the course:

Plaidy's Technical studies; Duvernay, op. 120; Coerny, op. 636; Laeschorn, op. 66 and 67; Czerny, op. 299; Heller, op. 45 and 46; Czerny's Six Exercises in Octaves, op. 553; Spindler, op. 141; Le Couppey, op. 20; Krause, op. 5; Cramer's 50 Etudes (Von Bulow edition); Jensen, op. 32; Bach's two and three Part Inventions; Clementi's Gradus ad Parnassum (Tansig edition); Moschelles, op. 70; Kullak's Octave School; Chopin Etudes, op. 10 and 25.

The above studies are not given entire, but such selections are made as will best meet the needs of each pupil.

The æthetic development will be made to keep pace with the mechanical by the study of works of the best composers, including Sonatas, Salon-pieces, Concertos, etc.

Before entering on this course, the student's hand must be formed, and he must be able to play the scales correctly at a moderate tempo, and to read music with some facility.

To this end the following short preparatory course, or its equivalent, is required:

Spindler, op. 131; Kohler, op. 162, 151 and 50; Spindler, op. 273, together with such pieces as Reinecke, op. 107; Kohler, op. 215 (Rondinos); Clementi, op. 36, Nos. 1 to 4; and Dussek, op. 20 (Sonatinas for piano and violin).

CULTIVATION OF THE VOICE.

Many voices which naturally possess superior qualities are often permanently injured by an improper mode of treatment.

Students are carefully instructed as to the anatomy of the vocal organs, correct use of the breath, also the fundamental principles of utterance as applied to singing or speaking.

The following is an outline of the course of study in this department:

Physiology of the Vocal Organs; the Scales and Intervals; Mme. Seiler's Vocalises; Marchesi's Vocalises; Conconi's Vocal Studies, op. 9, books 12 and 3, Concone, op. 10, Melodic Vocalization; English, German, Italian and French Songs; Operatic Airs; Solos from the Oratorios.

CHORUS AND GLEE WORK.

The instructor of vocal music has had years of experience in drilling choruses and no student can afford to miss the training afforded by the choral classes and the Glee Club for young men.

VIOLIN.

The following is the comprehensive course of study pursued by students in this department:

Elementary—Henning; Advanced—David, Wichtl, Alard, DeBeriot, Daucla, Kreutzer, Spohr, Schubert, Beethoven.

General Information.

FREE PRIVILEGES.

The following privileges are free to all members of the Conservatory:

1. Lectures on Classical Piano Forte music and the Great Masters.
2. Class in General Music Instruction.
3. Conservatory Recitals, Soirees, Rehearsals, etc.

STUDENTS' REHEARSAL.

Among the many important advantages of the Conservatory are the Students' Rehearals, which are held fortnightly, and at which students perform such pieces as are assigned to them by their teachers, thus enabling them to gain the self-control and ease so essential to a creditable performance before others.

The teachers contribute largely to the interest of these rehearsals by taking part themselves, thus giving the pupils an opportunity of hearing the works of the great masters for voice, piano and violin artistically rendered.

REGULATIONS.

Students are under the regular college discipline.

Students must register their names and pay their tuition before their lessons are assigned.

Only in case of severe illness of several weeks' duration can any deduction be made for absence from lessons. In such cases the Conservatory will share the loss equally with the student.

No student is allowed to take part in any public musical performance without permission from the director.

No student is allowed to give or receive instruction in music, outside of the Conservatory without permission from the director.

None but Conservatory pupils are allowed to use any of the pianos in the college buildings without permission from the director.

LITERARY ADVANTAGES.

A peculiar advantage of this Conservatory arises from its connection with a college, so that students can pursue any branch of general education under the best instructors in connection with their musical studies.

Music students are often unable to devote the whole of their time profitably to practicing, and literary studies afford a pleasant and sometimes needful variety.

EXPENSES.

Tuition per term, payable in advance, two lessons per week:

Fall term (15 weeks), private lessons, piano, vocal, violin, each	$22 00
Harmony and Composition,	6 00
Tuition all other instruments each	18 00
German and French languages each	5 00
Elocution (20 lessons),	5 00
Use of pianos and organs for practice for one hour per day	3 00
Tuition, Winter term (12 weeks), piano, vocal, violin, each	18 00
Harmony and Composition,	5 00
All other instruments,	15 00

Tuition Spring term same as the Winter term.

Commercial Department.

FACULTY.

JOHN T. LONG, LL.D., PRESIDENT.
WILLIAM HOMER LYON, DEAN.
LEATON IRWIN, B. S.
THOMAS SEEHORN.
JOHN H. RAYHILL.
EDWIN C. FERGUSON, PH. D.
B. L. TURNBULL.

PLAN.

The Commercial Department offers the fullest course of instruction in Accounts, Penmanship, Shorthand and Telegraphy. It is the most elegant and completely furnished business college in the west, and offers especial advantages in Normal Penmanship, Shorthand, Book-keeping and Telegraphy. It is a school conducted strictly in the interests of its patrons, and dedicated to the cause of practical education. The reasonable rates of tuition make it desirable for all to attend, and its advantages are unsurpassed.

GENERAL STATEMENT.

Its connection with the College of Liberal Arts gives it many important advantages, which will be appreciated by all scholars and parents particularly, as Discipline, Choice of Extra Studies, Literary Societies and Associations, the Spirit of Study, the Purpose of Excellence, a Scholastic Atmosphere full of those incentives and spurs so necessary to the youthful mind in its pursuit of knowledge, all arising from the combined energies of the several departments, and impossible to any single college. Complete in all its appointments, provisions and fittings, a PRACTICAL SCHOOL OF BUSINESS, it affords ample facilities for the education of young men and women for the various duties and employments of business life.

COMMERCIAL LAW AND BOOK-KEEPING.

Daily recitations, with free interchange of opinion between teacher and pupils, is adopted in these important studies as a far more efficient mode of developing, illustrating and enforcing its principles than the lecture system so generally adopted.

COMMERCIAL CORRESPONDENCE.

The ability to write an elegant, business-like letter is an invaluable accomplishment. Professional and business men, in all departments, frequently display in their letters serious defects in early education, not only in spelling, punctuation, use of capital letters and grammatical construction, but in the forms and principles of prevailing good usage in business, literary, official, diplomatic and social correspondence. In doing what it may to overcome these radical defects in common education, a business course serves an important purpose.

COMMERCIAL PENMANSHIP.

A good handwriting is to a young person respectability, position, money. Even those business men who write indifferently themselves usually require of their employes proficiency in this useful art. Our pupils uniformly become rapid, easy, legible, and many of them elegant penmen; and we guarantee to the faithful student a good business hand. Our methods of instruction are original, and many of our former pupils are now teaching them in all parts of the country. Daily instruction is given.

COMMERCIAL PAPER.

Continued practice in the writing, analysis and use throughout the entire course of study gives our students a familiarity with the various forms of business paper, which could hardly be acquired by years of labor in any single business pursuit. This is one of the important features of a business training, and we mean that our students shall do thorough work in it.

EXTRA STUDIES, FREE TO ALL.

Students in this department have the privilege of taking any studies they elect in the Classics, Sciences or Mathematics, without extra expense in the College of Liberal Arts or in the Preparatory Department.

Penmanship Department.

ORNMENTAL PENMANSHIP COURSE.

Ornamental Penmanship is taught in all its variations—Off-hand Flourishing, Pen Drawing, Lettering, Card Writtng, Engrossing, Making Specimens, etc.—a course of instruction designed to prepare young men for teaching Plain and Ornamental Penmanship.

PLAIN PENMANSHIP.

In teaching Penmanship in our business course we insist on the student acquiring a good hand-writing, combining the three qualities mentioned above—neatness, legibility and rapidity.

SHORT-HAND.

This is thoroughly taught by a competent teacher. Students will be permitted to select the system.

Telegraph Department.

The Superintendent of this department is a practical operator, and teaches the business from beginning to end, including the most minute details.

We use no "Student's Instruments," but the finest and best "Long Line Box Relays, Relays and Sounders" manufactured. Six months is the time usually spent by students in this department; some, however, finish in less time. A speed of twenty-five words per minute, both in *receiving* and *sending*, in addition to a thorough knowledge of general office work and a good plain style of rapid long-hand will be required before a diploma is granted.

Young men, middle-aged men, ladies and boys are admitted, and can enter during any week day in the year. No examinations at commencing, unless the applicant has previous knowledge of telegraphy and desires to be located in an advanced class.

In addition to the scientific and practical instruction imparted in the text-book adopted by this institution, and the daily drill, a course of lectures, with the use of apparatus, chemicals, illustrations and black-board elucidations are introduced, the following topics comprising the leading themes, viz:

1. The Electric Telegraph explained by the use of Relay Magnets, Sounders and Keys, &c.
2. Explanation of Main and Local Circuits.
3. The Complete Telegraph Office—Instruments, Batteries, Cut-Out, Ground Wires, Lightning Arresters, &c.
4. Dissertation, Forms of Business, Systems of Circuits, and Parliamentary Rules and Usages common on all telegraph lines.
5. Message Checks, Train Orders, &c.

Tuition and Expense.

Business Course, Fall Term	$16 00
" " Winter Term	14 00
" " Spring Term	13 00
Ornamental Penmanship, Extra	10 00
Short-hand only	10 00
Plain Penmanship	3 00
Telegraphy, (scholarship good for the course)	50 00
Scholarship good for the entire Business Course	50 00
Scholarship for both Business Course and Telegraphy	90 00

Students are charged a Matriculation Fee of $10.00 for admission to the Business Course, to be paid upon entering. This fee is paid but once, and a fee of $5.00 is charged for the diploma at graduation.

Law Department.

FACULTY.

JOHN T. LONG, LL.D., PRESIDENT,
Professor of Municipal Law.

JUDGE JOSEPH SIBLEY, LL.D., DEAN,
Professor of Common Law and Pleadings.

IRA M. MOORE, LL.D.,
(Author of Moore's Practice, etc.)
Professor of Constitutional Law and Evidence.

JOSEPH N. CARTER, LL.B.,
Professor of Contracts and Equity Pleadings.

ALBERT W. WELLS, LL.B.,
Professor of Commercial Law and Equity Jurisprudence.

COL. WILLIAM W. BERRY,
Professor of Real Estate and Code Pleadings.

GENERAL STATEMENT.

Law schools are now regarded to be of as great importance to the student of law as theological schools are to the ministry, or medical schools are to the medical profession. The law school offers the surest and most efficient way of becoming proficient in this the rarest and most difficult of attainments—the profession of the law. The art of teaching law has been learned by long and laborious teaching and practice, and the advantage of learning law from practical teachers cannot be too highly estimated. Teaching is an art that must be learned, in order to teach acceptably, and it is not of easy attainment, but requires years of assiduous practice. To meet the growing demands for the more special and thorough instruction in the various useful arts, schools of technology are springing up both in Europe and America. Should such considerations be disregarded in the study of law, when each profession has its own particular schools? Should the special training of that class of citizens who are to be the nation's advisors and counsellors, who are to be omnipotent either for good or evil, be neglected, uncared for? Shall the young men of this the greatest nation on the earth, where the brightest and best legal talent is needed, get their legal education accidental, irregular, as best they can in an office where but little attention can be given to them? Even if a young man had the fortune to be placed in the office of a distinguished and eminent

lawyer, would not his chances for receiving instruction be even less favorable than under some humble practitioner with but little business. The eminent counsellor is too exclusively employed with his clients' interests to afford the necessary time, even if he had the patience and skill of a teacher to pay much attention to his student. The result is, the student sits in the office perplexed and embarassed, blindly groping his way through the mazes of the text books. Experience has shown that more progress can be made in one year in a law school than is ordinarily attained in an office in two or three. The difference practically between such surroundings in offices and well conducted law schools, where it is the business of experienced teachers and lecturers to give instruction daily, is too apparent to every lawyer to need further comment.

LEGAL TRAINING.

It is the design of this department to fit students for successful practice in any State, and the course embraces not only all the branches of Constitutional, International Maritime, Commercial and Criminal Law, and Medical Jurisprudence, together with the Common Law and Equity Pleadings, Evidence and Practice, but also the Code Practice. Thus a substantial and broad foundation is laid for practice in any or all departments of law. In the States where the Code Practice is used, students will also find here all that could be desired. The Code and Common Law Pleadings are thoroughly compared and investigated, and students are made proficient in both methods of practice.

LECTURES.

Besides the daily class recitations two lectures are given daily to the law classes. They are spoken slowly to enable the students to take notes, to be used for future reference. These lectures during the course are upon the following subjects:

First Series—Ninety lectures upon Practice, Pleading and Evidence, (Common Law and Code Practice.)

Second Series—Sixty lectures upon Real Estate, Wills, Personal Rights, and Domestic Relations.

Third Series—Sixty lectures upon Criminal Jurisprudence and Criminal Law.

Fourth Series—Sixty lectures upon Personal Property, Contract and Commercial Law.

Fifth Series—Sixty lectures upon Partnership, Parties, Corporations and Mercantile Paper.

Sixth Series—Ten lectures upon Constitutional Law.

Total number of lectures during the Course, 340.

Course of Study—Law Department.

JUNIOR CLASS.

Fall Term, twelve weeks, five days a week—
Kent's Commentaries.....Dr. Long
Blackstone's Commentaries.....Judge Sibley
Washburn's Criminal Law.....Dr. Long
Winter Term, twelve weeks, five days a week—
Kent's Commentaries.....Dr. Long
Gould on Pleading.....Col. Berry
Cooley on Torts.....Hon. I. M. Moore
Parsons on Contracts.....J. N. Carter
Spring Term, twelve weeks, five days a week—
Greenleaf on Evidence.....Prof. Moore
Parsons on Contracts.....J. N. Carter
Parsons on Commercial Law.....Prof. Wells

SENIOR CLASS.

Fall Term, twelve weeks, five days a week—
Chitty on Pleading.....Judge Sibley
Story's Equity.....Prof. Wells
Winter Term, twelve weeks, five days a week—
Washburn on Real Property.....Col. Berry
Story's Equity Pleadings.....Dr. Long
Spring Term, twelve weeks, five days a week—
Washburn on Real Property.....Dr. Long
Cooley's Constitutional Limitations.....Prof. Moore

REQUIREMENTS FOR ADMISSION.

Any person is at liberty to matriculate in the Law department, and have a seat assigned him for attendance upon the lectures.

If, however, the person applying for admission intends to be a candidate for a degree at the end of his course, he must be not less than nineteen years of age, and must pass such examination in respect to general education as shall satisfy the faculty that his educational attainments are such as will justify his entering upon the practice of law when his legal studies are completed. This examination will be under the direction of the president of the faculty, and will begin on the first Monday of October and continue from day to day as candidates apply. A college diploma or a diploma from any state normal school, or any educational institution of corresponding grade will be accepted as a substitute for an oral examination. The faculty does not prescribe any definite course of examination, but will be governed by circumstances. It will be advisable for candidates who have written proofs of having completed a college course in part, or a high school course, to bring such proofs with them.

MORALS.

While thus endeavoring to impart legal knowledge, the fact will not be lost sight of, that a high moral standard is a most important requisite to a successful and honorable career; and no pains will be spared in impressing this fact upon students, and in inculcating a high tone of professional ethics and action.

PRIZES, GOLD MEDALS.

Each student before graduation is required to prepare and deposit with the faculty, at least a month before graduation, a thesis not less than forty folios in length, upon some legal topic selected by himself. The desertation must be satisfactory in matter, form and style.

Four gold medals will be awarded for the best four desertations.

BOOKS.

Students provide themselves with books. Arrangements have been made so that text books can be furnished very low. Students also have free access to the law library of the college to the library of the College of Liberal Arts and to the city library.

MOOT COURTS.

Saturdays, 8 to 10 A. M., Senior Moot Courts. Fridays, 2 to 4 P. M., Junior Moot Courts

COLLEGE CONNECTION.

The law department of Chaddock College is so arranged that those students who desire are at liberty to attend any of the regular classes in the College of Liberal Arts free of charge. Permission is given the law students, when not conflicting with lectures and recitations to attend the courts in the city, some of which are almost constantly in session.

DEGREE AND DIPLOMA.

The degree of Bachelor of Laws is conferred upon all who complete the above two years' course of study of thirty-six weeks each. The diploma admits to the bar of Illinois when the student has taken the full course of two years in this school.

It is the aim of this department to make its students systematic and thorough in their attainments. It proceeds upon the principle that the science of jurisprudence is to be inculcated by the approved modes of teaching the fundamental principles of other sciences, by the use of text books, and by the drill of the recitation room, with supplementary lectures and expositions, oral and written, and that two years is certainly short enough time.

Pleadings, etc.—The students are called upon, from time to time, to draw pleadings, contracts and other instruments connected with the practice of law.

FEES AND EXPENSES.

Matriculation fee, paid on entering,	$ 10 00
Term fee for one term,	25 00
For two terms,	45 00
For three terms, or one year,	60 00
Graduating fee and diploma,	10 00
Board and furnished room in dormitory building, per week,	3 50
Per term, by the week,	3 25
Board and tuition, including furnished room, for three terms of thirty-six weeks, payable in advance,	175 00

No fees will be refunded on account of the student being unable to attend, but if a whole term is lost a free ticket will be given to a term of the next year. Tickets are unassignable.

Students who room in the college will be required to furnish two sheets, one comfort and two towels, also their own fuel and lights for private rooms. In case these are not furnished by the student they will be furnished by the college at cost price. Fuel and lights average from $8.00 to $10.00 per year.

TERMS AND VACATION.

The regular Fall term of the law department opens Monday, Oct. 1, the Winter term Wednesday, Jan. 2, and the Spring term Monday, March 31. Students may enter the law school Sept. 5, at which time the other departments of the college open. This extra session of the law school is for the purpose of making up thirty-six weeks for those students who entered late in the term last year. Proportional rates are charged.

Students or other persons desiring further information respecting the College of law are requested to communicate with

Professor of Materia Medica and Therapeutics.

GEORGE CARLEY, PH. D.,
Professor of Pharmacy.

D. BRYAN BAKER, M. D.,
Demonstrator of Anatomy.

*To be supplied.

Introductory.

Situated as this institution is, in the heart of the northwest, the faculty of the Quincy College of Medicine take great pleasure in presenting to the profession and the medical students of this vast region their second annual announcement. We propose to confine ourselves to what we believe to be a fair representation of the many advantages afforded by our central position and extensive hospital facilities for the acquirement of a clear, comprehensive and practical knowledge of the science and art of medicine and surgery, as understood and practiced in the great field of the Mississippi Valley. The great advantage to the student of receiving his medical instructions from teachers thoroughly familiar, by long residence and observation, with the endemic influences operating in his future field of labor, we presume, will be conceded by all.

The course of instruction in this school will commence on the second Monday in October, 1883, and continue until the last Wednesday of the ensuing March. There will, however, be a holiday vacation of ten days.

FACILITIES FOR TEACHING.

The professors in each branch have been selected with care and discrimination. Those who fill the practical chairs are not only men of learning and scientific acquirements, but they have had long and wide experience in their special departments. Some of them have grown gray in their respective fields of labor, yet are still in active practice, and will bring their past experience and their daily observations before the class to enforce and illustrate their lectures.

The city of Quincy is located on the Mississippi river, and is the central point of a large system of railroads, giving easy and rapid access from all points of the country. It is a large manufacturing and commercial city, and presents especial facilities for imparting medical instruction in its large and well-filled hospitals, that receive patients from all the adjacent States. The wards of these hospitals are under the medical and surgical control of different members of our faculty, and are open, without charge, under proper restrictions, to all the students of Quincy College of Medicine.

St. Mary's Hospital, conducted by the Sisters of St. Francis, is one of the largest and most successfully managed in this or any other country, and all its beds are usually occupied. A great number of very interesting medical and surgical cases are daily treated. Medical and surgical clinics will be given as often as the interests of the class, and the importance of the cases, as material for valuable instructions, may require.

Prof. Curtis is the efficient and accomplished surgeon, a position he has held with credit for fifteen consecutive years. His ripe experience and extensive observation during the past thirty years of active practice will be of great benefit to the class.

Prof. Rooney has entire charge of its medical department, and will exhibit to the class typical cases of almost every variety of disease to be met in general practice.

Sarah Denman or Blessing Hospital is also large and well adapted to furnish an extensive field for clinical instruction. This hospital supplies a large number of interesting clinical cases, the examination and treatment of which will be extensively developed and explained by Professors Byrd and Hatch.

Prof. Bassett is the medical director and chief of the staff, and Prof. Hatch the physician in charge.

REQUISITES FOR ADMISSION.

All applicants who can present evidence of a good English education sufficient to enable them to understand medical literature and to readily and thoroughly comprehend the necessary technicalities of our profession, are eligible to our class. This may be made apparent by diplomas, evidence or certificates from proper authorities, or in their absence, by oral or written examinations.

While the faculty of Quincy College of Medicine recognize the advantages of a classical education, they do not deem such acquirements essential to becoming skillful and successful practitioners of medicine and surgery. Our own language, if correctly understood, is amply sufficient.

While the faculty do not absolutely require it at present, it strongly advises a three term course of study.

Students are expected to attend all the lectures of each term, in order that they may become familiar with each subject. They will be divided into classes for examinations and studies out of the lecture rooms.

First course pupils will be examined on and be expected to give especial attention to the elementary branches, consisting of Anatomy, Physiology, Chemistry and Materia Medica. Second and third course students, while they may from time to time be questioned on these subjects, will be particularly examined on principals and practice of medicine and surgery, general therapeutics, pharmacy, hygiene and mental diseases, obstetrics and diseases of women and children and other specialties, according to their degree of advancement.

CURICULUM.

The regular curiculum of instruction embraces didactic and clinical lectures. Principles and practice of medicine will be taught in connection with individual diseases as well as in reference to general pathology.

Prof. Bassett will lecture upon general and special pathology. He will fully explain the means that experience and recent research in pathology and therapeutics demonstrate to be the best for the cure of disease, the relief of pain, and the prolongation of life.

Prof. Rooney will give clinical instructions at the hospital and dispensary, illustrating at the bedside of the patient the methods pointed out by the chair of principles and practice.

PRINCIPLES AND PRACTICE OF SURGERY.

Prof. Curtis will teach this important branch by general and special lectures. Conservative surgery will be particularly dwelt upon and illustrated.

Prof. Byrd will deliver a course of clinical lectures on surgery. He is Consulting Surgeon to Sarah Denman Hospital, and will give full instructions upon bandaging and minor surgical operations. He will also present to the class such cases of uterine and abdominal surgery as propriety will permit.

The surgical patients of these two professors will afford students an exceptionally fine opportunity for acquiring practical as well as theoretical knowledge in this department.

OBSTETRICS AND DISEASES OF WOMEN.

Prof. McDavitt will illustrate his teaching to advanced students, as opportunity may present, by cases in hospital and private practice. The important subjects of diseases of women and children will also receive from him an elaborate elucidation.

CHEMISTRY AND ELECTRO-THERAPEUTICS.

Prof. Cohen has every requisite appliance for teaching. He has taught and practiced in both of these departments for many years, and has few equals in chemical and microscopical analysis.

MATERIA MEDICA AND THERAPEUTICS.

This chair will be efficiently provided for in the near future.

ANATOMY.

General, descriptive and microscopical anatomy will be thoroughly taught by Prof. Hatch, and material for dissections will be furnished to meet the demands by the demonstrator, who will carefully instruct the class in this important study and art.

PHARMACY.

Prof. Carley will instruct the students thoroughly in the art of compounding their own prescriptions when necessary. This is a very important accomplishment for the medical practitioner at all times.

PHYSIOLOGY AND HYGIENE.

These very important branches will receive their full share of attention and be efficiently taught by Prof. Ellis, both didactically and by vivisections and demonstrations and such means of illustration as are necessary.

FORENSIC MEDICINE.

Will be taught by Professors Curtis, Cohen and Byrd in its practical applications to the physician.

Toxicology will be fully taught by the professors of chemistry and pharmacy.

DISEASES OF BRAIN AND NERVOUS SYSTEM.

Prof. Erichson will teach the anatomy, physiology and pathological changes of these delicate organs, as also the most modern views on the subject of treatment, and point out the normal and abnormal manifestations, and open up a field where much needed information is often sadly neglected in the curriculum of medical schools.

OPHTHALMOLOGY.

Dr. Woods will give instruction in diseases of the eye and ear, by clinical and didactic lectures.

EXAMINATIONS AND REVIEWS.

There will be examinations, quizes and reviews by each professor on the subject of the previous lecture.

The graduating classes will be thoroughly reviewed at the end of each week.

No extra fee will be received for any private or extra teaching in connection with the college course that may be given by members of the faculty.

ATTENDANCE UPON LECTURES AND CLINICS.

Students will be required to be in place promptly at every lecture, and any failure to do so without good cause will subject them to discipline.

Absence to the amount of twenty per cent. of the term, for any cause, will deprive a student of his certificate of attendance for such term.

REQUISITES FOR GRADUATION.

Candidates for graduation must notify the Dean at least one month before the end of the term, and at the same time deposit the fee for examination, which will not be returned, but he will be entitled to subsequent examinations without further fee.

They must have actually attended two full courses of lectures, of at least five months' duration each, and not in the same year, the last of which in this school; they must have taken two courses of instruction in anatomy, including dissections and demonstrations; be twenty-one years of age; have pursued the study of medicine at least three years; present proofs of good character and habits, and pass a creditable examination in all the branches taught in this institution.

ADDENDUM AND HONORARY AD EUNDUM.

Graduates of other medical colleges, by matriculating, attending one full course of lectures, and paying the examination fee, may present themselves for examination at the regular time, subject to the same scrutiny as other students.

No honorary degree will be conferred upon any person less than forty years of age, or who has not been reputably and continuously engaged in the practice of medicine for twenty years, or who has not taken a degree in medicine.

COLLEGE BUILDING.

The College is on Maine street, between Sixth and Seventh, Nos. 621 and 623, in the central portion of the city, near the postoffice and business houses, but sufficiently secluded for all practical purposes. The lecture rooms and other accommodations are ample and complete for all the requisites of a first-class medical school.

FEES.

Matriculation	$ 5 00
Professor's Ticket	40 00
Demonstrator's Ticket	10 00
Examination	25 00
Single Tickets	10 00

Anatomical material at cost.

Any information not included in the foregoing pages can be had by addressing the Dean or Registrar, and will be cheerfully furnished by any member of the faculty.

Medical students, on arriving in the city, should at once proceed to the office of the Dean or Registrar, who will assist them in obtaining information as to board and lodging. Good board can be secured at as reasonable rates as in any city of the west.

Students can, if they desire it, form or join boarding clubs, as is customary with those attending literary institutions in this city, thus materially reducing their expenses.

TEXT BOOKS.

Anatomy—Gray, Wilson, Ellis, Holden.

Practice of Medicine—Flint, Roberts, Da Costa, Reynolds.

Surgery—Ashurst, Bryant, Holmes, Billroth, Gross.

Obstetrics—Lusk, Playfair, Hodge, Byford.

Diseases of Women—Thomas, Emmett, Barnes.

Diseases of the Eye—Wells, Mittendorf.

Pathology—Virchow, Rindfleisch, Green.

Diseases of the Throat, Nose and Ear—Rumbold, Burnett, Cohen, Roosa.

Chemistry—Bloxam, Fowne, Roscoe, Odling, Flint on Urine, Tyson on Urine.

Physiology—Foster, Flint, Dalton.

Pharmacy—Parrish.

Materia Medica—Bartholow, Wood, National Dispensary.

Medical Jurisprudence—Taylor, Beck, McClellan.

For further information address,

C. R. S. CURTIS, M. D., Dean; or
HENRY HATCH, M. D., Registrar,
Quincy, Ill.

COMPETITIVE PRIZES.

First Prize. A handsome pocket case of surgical instruments will be awarded to the student who passes the best examination on the surgical lectures of Prof. Curtis.

Second Prize. An amputating case will be given to the student passing the best examination on surgical anatomy.

Third Prize. A fine dissecting case will be awarded to the student who passes the best examination on anatomy.

Fourth Prize. Bartholow's Materia Medica and Therapeutics will be given for the best set of notes.

Garrett Biblical Institute.

[THEOLOGICAL DEPARTMENT OF CHADDOCK COLLEGE.]

FACULTY.

REV. WILLIAM X. NINDE, S. T. D.,
President, and Cornelia Miller Professor of Practical Theology.

REV. HENRY BANNISTER, S. T. D.,
Professor of New Testament Exegesis and Biblical Theology.

REV. MINER RAYMOND, S. T. D.,
Professor of Systematic Theology.

REV. FRANCIS D. HEMENWAY, S. T. D.,
Professor of Hebrew and Biblical Literature.

REV. HENRY B. RIDGAWAY, S. T. D.,
Professor of Historical Theology.

REV. MOSES L. CROSS, B. D.,
Instructor in Greek.

PROF. ROBERT L. CUMNOCK, A. M.,
Instructor in Elocution.

(For List of Students see Page 19.)

General Statement.

The Garrett Biblical Institute has been in operation since 1856. It is open to all young men from any evangelical church, who are proper persons to study in preparation for the Christian ministry. It was established especially as a seminary where young men of this class from the Methodist Episcopal Church may be educated. It is supported by income from property in the city of Chicago, bequeathed, as a perpetual foundation by the late Mrs. Eliza Garrett. It invites to its care and instruction the hundreds of young men in the church whom God has called to be His ministers.

It is essential that those who enter this course should have good preparation in previous study. Chaddock College offers its advantages to those who require this preparation.

ADMISSION OF STUDENTS.

Students not licensed to preach, are received on the recommendation of their respective quarterly conferences (or, in failure of this, temporarily, of their pastors,) that they are regarded as proper persons to study in preparation for the Christian ministry. This implies, in the applicant, genuine religious character, good natural talents, and an undoubted call to the ministry. The form of recommendation authorized by the General Conference of the Methodist Episcopal Church, is as follows:

"*We, the members of the quarterly conference of*....., *hereby express our judgment that*.....*is called of God to the work of ministry, and we commend him to the care and instruction of the Garrett Biblical Institute.*"

Applicants from other churches will bring the certificates which are usually given by the denominations to which they belong.

Graduates of colleges are received as candidates for the Degree of Bachelor of Divinity.

Applicants not college graduates, but bringing attainments and disciplined faculties fully adequate to grasp the course of study, are received as candidates for the Institute Diploma.

EXPENSES.

Tuition and room-rent are free of charge to regularly entered theological students. When occupying a room in Heck Hall, each student is charged an incidental fee of ten dollars, payable half-yearly in advance, for curator's services, fuel for public rooms, and general repairs. When not occupants of Heck Hall, students pay (half yearly in advance) a fee of five dollars a year.

The majority of the students obtain wholesome board in clubs for about two and a half dollars a week. In families board is from three to four dollars a week.

The actual expenses of board, incidental fee, fuel, light and washing need not exceed the sum of one hundred and fifty dollars a year.

Course of Study.

JUNIOR YEAR.

The Junior year is devoted to

(1) Hebrew in its grammatical elements, and Hebrew Readings in Genesis, and other Old Testament selections.

(2) Mental Science with reference to the study of Theology; Christian evidences; and Theology proper.

(3) Lectures twice a week (or equivalent time) on Biblical Introduction, Archæology and Criticism.

(4) Homiletics twice a week.

MIDDLE YEAR.

The Middle year is devoted to

(1) Critical Exegesis of various parts of the Greek New Testament, and the analysis and explanation of passages of special difficulty.

(2) Critical Exegesis of the Psalms, the Prophets, and other difficult parts of the Hebrew Old Testament.

(3) Systematic Theology—Anthropology; Soteriology; Eschatology.

(4) Church History to the Reformation.

In each of these exercises the students present dissertations for analysis and determination by the Professors.

SENIOR YEAR.

The Senior Year is devoted to

(1) Church History concluded.

(2) Systematic Theology—Polemics; Ethics and Ecclesiology.

(3) Twice a week, Pastoral Theology and the Constitution and Discipline of the Church. Biblical Theology twice a week.

(4) Critical Exegesis of the Greek New Testament.

Elocutionary exercises during the three years.

Expenses in Chaddock College.

Tuition and Incidentals, Fall Term.....$16 00
" " " Winter Term..... 14 00
" " " Spring Term.. ..... 13 00
Board and furnished room in the new dormitory building, by the term, per week..... 3 25
For a shorter period than one term, per week..... 3 50

Students rooming alone will be charged 50 cents per week extra. But two students are permitted to occupy one room.

Elocution, special lessons, per term.....$ 4 00
French, extra, per term..... 5 00

No tuition fee is received for less than one term. Those entering after the term opens will be charged full rates.

No deduction for absence, unless it exceeds or equals a half term, and the absence is occasioned by sickness. In such cases a certificate is given for one-half of the lost time. No certificate is transferable.

Board, Tuition and Incidentals, Fall Term, paid in anvance.....$64 00
" " " " Winter Term, paid in advance..... 54 00
" " " " Spring Term, paid in advance..... 52 00

When board bills are not paid for by the term in advance, $3.50 per week will be charged.

Board, Tuition and Incidentals, per year, all three terms, $160, one-half payable September 5 and the other half payable January 2.

Each student will be required to furnish one comfort, two sheets, three towels, three napkins, two pillow cases, soap, matches and a coal oil lamp. Fuel and lights for private rooms will be furnished at cost. This expense varies from $6.00 to $8.00 per year, to the gentlemen.

Ladies will be charged for fuel at the following rates, each:

Fall Term.....$3 50
Winter Term..... 5 00
Spring Term..... 2 50

This includes the cost of fuel and the services of a janitor to take it to their rooms.

Students may furnish their own fuel if they desire.

WASHING.

The pillow cases, towels and napkins will be washed free of charge. Sheets and underclothing, charged for extra, will be washed at the laundry at the rate of from 65 to 75 cents per dozen pieces.

BOOKS.

School books are furnished at the College at a slight advance above cost, to pay freight and handling, but students are permitted to buy their books elsewhere in the city if they prefer. The object of the management of the College is to make the cost of attendance as low as possible, and it is believed that no institution of equal grade offers similar advantages at as little cost.

Students need but little spending money, and parents should not encourage them in extravagant dress at school. Plain, substantial clothing is all that is desired. Students are apt to spend money unnecessarily, and parents should send them but little, except to pay the bills of the College.

Degrees, Etc.

The degree of A. B. (Bachelor of Arts) is conferred upon all students who honorably complete the Classical Course.

The degree of B. S. (Bachelor of Science) is conferred upon all students who honorably complete the Latin Scientific Course or Scientific Course, and the degree of Ph. B. (Bachelor of Philosophy) is conferred upon all students who honorably complete the Course in Philosophy and Literature.

Graduating fees $10.00.

Both sexes are admitted to these Courses upon equal terms.

The degrees of Master of Arts, Master of Science, and Master of Philosophy will be conferred upon corresponding Bachelors of three years' standing who have sustained a good moral character, and pursued professional or other advanced studies. Applications should be made to the President before commencement, accompanied with a fee of five dollars.

The degree of Bachelor of Law is conferred on those who complete the Course prescribed by the College of Law.

The degree of Doctor of Medicine is conferred on those who complete the Course prescribed in the College of Medicine.

The degree of Bachelor of Divinity is conferred by the Garrett Biblical Institute on Bachelors of Arts who complete the Course prescribed in that institution.

The degree of Bachelor of Music is conferred upon those who complete the Course of Instruction in the Conservatory of Music.

Miscellaneous.

RECITATIONS.

Recitations begin at 8:00 o'clock and close at 12:45. The remainder of the day and evening is devoted to study and recreation. Devotional exercises are held every morning in the chapel.

COLLEGE REGISTER.

The average standing of each student in all studies, together with the deportment, is placed in the College Register, and an abstract of this record will be sent, if desired, at the end of each term to the parents or guardians of such as are minors. The standard of perfection, either in scholarship, punctuality or deportment, is one hundred. If the standard is below sixty-five, the student has failed, and is required to pursue the study again; and credit is not given until after a satisfactory examination.

EXAMINATIONS.

Examinations occur at the close of each term, or sooner if the work in the department is finished, and the final examination of the Seniors is held four weeks before Commencement.

COMMENCEMENT.

The last week of the Spring Term is appropriated for the closing exercises of the College Courses, including examinations, the Annual Sermon, the Annual Lecture, the Literary Exercises of the Societies, Meeting of Alumni, President's Levee, Students' Reunion, and Graduating Exercises.

LOCATION.

Chaddock College is located in the beautiful city of Quincy, Illinois. It is easy of access from all points of the compass, and a more healthy and desirable location can nowhere else be found. The main College building, costing over *two hundred thousand dollars*, one of the finest finished edifices in the United States, was built by Governor Wood. It is situated about a mile southeast of the Court House, in a beautiful shady lawn. The campus contains between five and six acres. West of the main building is the new Dormitory, a cut of which is given on the outside page cover of this catalogue. It is the finest dormitory building in the west.

SOCIETIES.

There are three Literary Societies in connection with the College—the Senate, the Belles Lettres and the Amphictyon. These societies meet statedly for literary and oratorical improvement, and are doing a good work. There is also the young ladies and young gentlemen Christian Association, which meets for worship twice per week.

LIBRARY.

The College contains a Library of the choicest works, also a Reading Room. In the Library room is also found a fine collection of mineral specimens, fossils, and a fine herbarium. There is also an excellent City Library and Reading Room, to which all have free access.

TIME OF ENTERING.

We say to all who anticipate attending Chaddock College sometime, come as soon as you possibly can. If you cannot come at the first of the term, come as soon as you can get ready, and do not wait until the next term opens. It is true the best time to enter is at the beginning of a term, and for many the opening of the Fall Term is better than any other; yet the loss incurred by waiting is far greater than any disadvantage arising from entering in the midst of a term. We will take care of you as soon as you enter, and assist you in any way we can. When you arrive in the city come directly to the College, no matter what time of day or night, we will find you comfortable quarters.

ADVANTAGES OF QUINCY AND CHADDOCK COLLEGE.

The attention of students from abroad is especially called to the fact that Quincy offers many advantages not found in many other places. The population of the city is over 30,000, and it contains numerous manufacturing establishments, a large library and museum, and almost continuous court sessions. All these afford students excellent facilities in the applied sciences. The weekly lectures on the various subjects in the College, the Department of Music, the courses of Lectures by distinguished speakers from abroad, with many other advantages, are inducements for the student to supplement the work of the College with a practical application of the studies pursued.

The College is now offering unsurpassed facilities for a thorough education. The cost of living in Quincy is cheaper than in smaller cities, so that it is to the interest of the student to attend Chaddock College. The institution has just passed through one of the most successful years in its history, and now offers to its patrons of 1883–4 the best of facilities, with experienced professors in every department.

Quincy, Illinois.

Testimonials.

For the information of those who may be unacquainted with the advantages offered by this institution, the following testimonials are given:

To All Whom it May Concern.

We, the undersigned, business men of Quincy, take great pleasure in recommending Chaddock College, of this city, to all persons desiring an education.

The President, John T. Long, LL.D., is an experienced educator, and successful manager of the institution.

The Faculty consists of excellent teachers and the College offers the very best facilities.

Very respectfully,
